We asked Dustin from C-Global Inc about their use of the Procore to SharePoint integration and how it has helped their company.

Q: **On a scale of 0 to 10, how likely are you to recommend SyncEzy to your colleague or friend?**
A: 10

Q: What were your processes before using this integration?
A: Procore Drive

Q: What made you want to change from your previous processes to the integration with SyncEzy?
A: Simplicity and ease of use.Marshall Spevak made this deal happen. He worked with me diligently and patiently while my company and I went through our approval processes. He helped me connect with long-term users and ensured that we got the most out of our trial.

Q: What were the big wins while using the integration?
A: Happy coworkers. Simplicity. Ease of use. Unlimited Procore Projects. Unlimited Users.

Q: Lastly, how would you describe the integration and its value when chatting with a friend?
A: If you were like us before, you had to access your files for Procore Projects using Procore Drive. You had to make sure that when you created a new document on your computer, you saved and uploaded it to the correct Project folder, all without forgetting which file needed to be kept current. Then you need to check out this subscription called SyncEzy and it will bridge that gaps that Procore misses.

IF YOU'VE FACED THE CHALLENGES OF MANAGING PROCORE PROJECT FILES AND ENSURING SEAMLESS UPDATES, CONSIDER EXPLORING SYNCEZY—A SUBSCRIPTION THAT BRIDGES THE GAPS OVERLOOKED BY PROCORE.
