PROCORE **SYNC EZY** **SharePoint**

We asked Amy Matheson from Dexel about their use of the Procore to SharePoint integration and how it has helped their company.

Q: On a scale of 0 to 10, how likely are you to recommend SyncEzy to your colleague or friend?
A: 10

Q: What were your processes before using the Procore to SharePoint integration?
A: We were still figuring out how we were going to save out our documents within Procore and Locally. Initially, we thought it was going to be a laborious process of saving out duplicates before we discovered SyncEzy.

Q: What made you want to change from your previous processes to the integration with SyncEzy?
A: Saving out duplicate is laborious and SyncEzy cuts that out.

Q: How did you find SyncEzy?
A: We found it through Procore's integration information as an option.

Q: What were the big wins while you have been using the integration?
A: SyncEzy is almost instant (pending file size) once you have the pathways configured - it really helps out!

Q: Lastly, if you were describing the integration and its value when chatting with a friend, how would you describe it?
A: SyncEzy makes it easy. You don't have to worry whether you save a document locally or on Procore - it will save out on the other-side.

SAVING OUT DUPLICATE IS LABORIOUS AND SYNCEZY CUTS THAT OUT & MAKE IT EASY. SYNCEZY IS ALMOST INSTANT ONCE YOU HAVE THE PATHWAYS CONFIGURED - IT REALLY HELPS OUT!
