

We spoke to Justin from Check Systems about his use of the PropertyMe to FieldMagic integration and how it has helped their company.

Q: What were your processes before using the PropertyMe to FieldMagic integration?

A: Data entry of all details including tenant contact info. Completely reliant on receiving work orders to know information about lease renewals and new leases.

Q: What made you want to change?

A: Wanted to be more innovative, and save time for our admin staff. Also to be more proactive in anticipating lease changes for our customers.

Q: How did you find SyncEzy?

A: Referred by FieldMagic

Q: What have been the big wins whilst you have been using the integration?

A: Saving time by reducing the amount of data entry. Better anticipation of when work needs to be scheduled.

Q: Lastly, if you were describing the integration and its value when chatting to a friend, how would you describe it?

A: It is an important part of us being able to provide exceptional service to our customers.

**SAVING TIME BY REDUCING
THE AMOUNT OF DATA ENTRY**

Justin - Owner at Check Systems
