SYNC  **EZY**

We spoke to Manny Sidhu from Epic Inspections about his use of the PropertyMe to ServiceM8 integration and how it has helped their company.

Q: What were your processes before using the PropertyMe to ServiceM8 integration?

A: Before using the PropertyMe to ServiceM8 integration, everything we did was manual - manual entries of all data into both systems.

Q: What made you want to change?

A: The integration became another selling point for our business. Now we can offer for real estate agents who use PropertyMe to seamlessly connect with our ServiceM8 account to send us jobs.

Q: How did you find SyncEzy?

A: A mutual friend put me in touch with the SyncEzy founder, Hari Iyer.

Q: What have been the big wins whilst you have been using the integration?

A: Since we started using the integration, we've had more sales and love the automatic integration that is a big time-saver.

Q: Lastly, if you were describing the integration and its value when chatting to a friend, how would you describe it?

A: Using this integration means less manual work for our team and we're excited about the product roadmap that SyncEzy has for their integrations.

WE'VE HAD MORE SALES...

Manny Sidhu - Owner, Epic Inspections
