

We spoke to Anna Campbell from CPE Landscaping about her use of the simPRO to Quickbooks Time integration and how it has helped their company.

Q: What were your processes before using the simPRO to Quickbooks Time integration?

A: Prior to the integration, we would manually enter timesheets into simPRO.

Q: What made you want to change?

A: Our main motivation was to save time.

Q: How did you find SyncEzy?

A: I'd had a few people mentioning and recommending SyncEzy and started connecting with their team through the simPRO Facebook page.

Q: What have been the big wins whilst you have been using the integration?

A: Our biggest win was the time-saving! Real time hours against projects and accurate costings. We became more efficient and had less stress because we didn't have to keep doing manual processes.

Q: Lastly, if you were describing the integration and its value when chatting to a friend, how would you describe it?

A: The setup was easy & seamless. I've had quick responses to queries & tech support and the training was easy to understand. SyncEzy staff are always available when you need them.

THE SETUP WAS EASY AND SEAMLESS.

ANNA CAMPBELL - FINANCIAL & ADMINISTRATIVE MANAGER
