We spoke to Brodie Maguire from Tri-State Electrical about his use of the simPRO to Quickbooks Time integration and how it has helped their company.

Q: What were your processes before using the simPRO to Quickbooks Time integration?
A: We were using PDF-fillable forms that were submitted weekly.

Q: What made you want to change?
A: We wanted to streamline our payroll processing and make it easier for field staff to log their daily clock-ins and clock-outs.

Q: How have you found working with SyncEzy?
A: Good! The system was fluent and easy to use. Help was always a phone call away.

Q: What have been the big wins whilst you have been using the integration?
A: Faster times in getting data into simPRO and seamless calculations of penalty rates**.**

Q: Lastly, if you were describing the integration and its value when chatting to a friend, how would you describe it?
A: Any easy way to capture time worked across different sites with a unified push to simPRO Schedule.

THE SYSTEM WAS FLUENT AND EASY TO USE
