

**We spoke to Vince Oliveri from New Edge Group about his use of the simPRO to Quickbooks Time integration and how it has helped their company.**

**Q: What were your processes before using the simPRO to Quickbooks Time integration?**

**A:** Prior to the integration, our employees would provide written paper timesheets for their times which would be manually entered into our payroll system - hours were then scheduled manually in simPRO.

**Q: What made you want to change?**

**A:** We wanted increased efficiency within the payroll and administration team through moving to a paperless system.

**Q: How did you find SyncEzy?**

**A:** Through an external accountant who advised he had prior experience using Quickbooks Time and had a contact who worked at SyncEzy who was responsible for the integration between Quickbooks Time and simPRO.

**Q: What have been the big wins whilst you have been using the integration?**

**A:** Overnight scheduling of labour to live projects, paperless system, reducing work load of the administration team.

**Q: Lastly, if you were describing the integration and its value when chatting to a friend, how would you describe it?**

**A:** A great time effective software which is simple and easy to use and adopt within the business, with a great support team willing to help and able to help with any questions or concerns.

**A GREAT SUPPORT TEAM WILL AND  
ABLE TO HELP**

**VINCE OLIVERI - CHIEF FINANCIAL OFFICER AT NEW EDGE GROUP**
