**Q: What were your processes before using this integration?**

A: We implemented this integration at the same time as we implemented the new system.

**Q: What made you want to change from your previous processes to the integration with SyncEzy?**

A: Implementation of a global HRIS and the desire for it to connect to our Australian based payroll system.

**Q: What were the big wins while you have been using the integration?**

A: The big wins have been in the employee experience, which is seamless from their end and means that now, globally, all employees have visibility into leave and availability.

**Q: Lastly, how would you describe the integration and its value when chatting to a friend?**

A: The integration is a vital piece of our people systems processes.
