

We spoke to Haritha Paulose from Tesla about their use of the Procore to SharePoint integration and how it has helped their company.

Q: What were your processes before using this integration?

A: Before using this integration, we had to upload the same documents separately to both Procore and SharePoint. This was time-consuming and often led to errors or outdated files. We wanted a way to make the process more efficient and accurate.

Q: What made you want to change from your previous processes to the integration with SyncEzy?

A: We switched to SyncEzy to save time and reduce errors. Uploading documents to both Procore and SharePoint manually was time-consuming and sometimes led to mistakes. With SyncEzy, everything syncs automatically, making our work faster and more reliable.

Q: What were the big wins while you have been using the integration?

A: The integration saved us time, reduced errors, improved teamwork, and made our workflow smoother.

Q: Lastly, how would you describe the integration and its value when chatting to a friend?

A: I'd say the integration has been a game-changer. It automatically syncs our documents between Procore and SharePoint, saving us time and hassle, while keeping everything up-to-date and making collaboration much easier.

THE INTEGRATION SAVED US TIME, REDUCED ERRORS, IMPROVED TEAMWORK, AND MADE OUR WORKFLOW SMOOTHER.
