

We spoke to Jesse Kovanis from Razorback LLC about their use of the Procore SharePoint integration and how it has helped their company.

Q. On a scale of 0 to 10, how likely are you to recommend SyncEzy to your colleague or friend?

A: 10

Q. What were your processes before using this integration?

A: We are new to Procore so we didn't have a process for syncing files, we've just been using SharePoint.

Q: What made you want to change from your previous processes to the integration with SyncEzy?

A: With the addition of Procore, we wanted our bid writers to be able to still utilize SharePoint but have it sync to Procore so that the Documents are accurate without having to upload things twice.

Q: What were the big wins while you have been using the integration?

A: The syncing has been wonderful, it reduces the need for repetition and allows us to utilize both SharePoint and Procore.

Q: Lastly, how would you describe the integration and its value when chatting to a friend?

A: It's certainly worth the cost to be able to integrate SharePoint and Procore if you want to use both software.

IT REDUCES THE NEED FOR REPETITION AND ALLOWS US TO UTILIZE BOTH SHAREPOINT AND PROCORE.
