

**We spoke to Darren from Molloy Electrical Contractors about their use of the Simpro to Xero integration and how it has helped their company.**

**Q: What were your processes before using this integration?**

**A:** Before using the integration, our employee lifecycle processes were largely manual and spread across multiple systems.

**Q: What made you want to change from your previous processes to the integration with SyncEzy?**

**A:** We wanted to reduce duplication of effort and improve data consistency across our core systems.

**Q: What were the big wins while you have been using the integration?**

**A:** The biggest wins have been time savings and improved data integrity. Employee creation and termination workflows are now largely automated, which significantly reduces manual handling and the chance of human error.

**Q: Lastly, how would you describe the integration and its value when chatting to a friend?**

**A:** I'd describe it as a smart, practical integration that genuinely saves time and reduces admin overhead. It keeps our key systems aligned, removes repetitive manual tasks, and continues to improve based on customer feedback.

**I'D DESCRIBE IT AS A SMART, PRACTICAL INTEGRATION THAT GENUINELY SAVES TIME AND REDUCES ADMIN OVERHEAD.**
