

We spoke to Atli Thordarson from Landsvirkjun about their use of the Autodesk SharePoint integration and how it has helped their company.

Q. What were your processes before using this integration?

A: Before implementing the integration, all of our processes were manual, which was time-consuming and increased the risk of errors and delays.

Q: What made you want to change from your previous processes to the integration with SyncEzy?

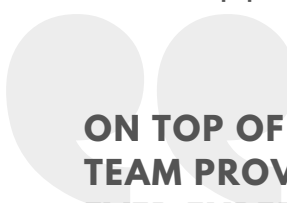

A: We wanted to automate our workflows, reduce manual effort, and improve the accuracy and efficiency of our operations.

Q: What were the big wins while you have been using the integration?

A: The biggest wins have been the significant time savings, improved data accuracy, and reduced administrative workload. The integration has streamlined our processes, eliminated many manual tasks, and allowed our team to focus on higher-value work.

Q: Lastly, how would you describe the integration and its value when chatting to a friend?

A: The integration is simple to use, reliable, and delivers exactly what it promises. It has saved us considerable time through automation and has made our processes much more efficient. On top of that, the SyncEzy customer service team provides some of the best support I have ever experienced in my career.

ON TOP OF THAT, THE SYNCZY CUSTOMER SERVICE TEAM PROVIDES SOME OF THE BEST SUPPORT I HAVE EVER EXPERIENCED IN MY CAREER.
